"Bloodthirsty soldiers against an obscure empire fixed in the middle of the forest. Carbines against ballistas, prison and sacrifice for those who didn't fall in the battlefield."

Brave knights call your god essence  
Hide before the moon emerge  
Night has fallen in battlefield  
Tenebrae sounds of war  
Night can draw the enemies  
Turn their hopes in dusk and pain  
Time for battle is passing by  
We know the smell of fear

We're blessed into fire  
Storm warriors of the empire  
Gold weapons are shining in our hands

Scrolls written along this night  
Lost and found beyond the wood  
Words of blood wait death for come  
- Why do we come to hell?

The silence of the darkest sin  
Betray the hangmen coming near  
Steel sounds are the hymns of night  
I hear the call: attack!

We're blessed into fire  
Storm Warriors of the empire  
Your sorrow lies at these lands

Soldiers March and fight against Wind  
You fall you sense the taste of defeat  
Serve the empire and honor your King  
In death's embrace in the glory field

"Look behind those screams  
What is written with blood  
Hope and fear has felt down on the ground  
Look around those fields  
Proud and death become real

Pain and disgrace  
It's time to surrender"
