A new American revolution has begun,  
Not against the forces of a colonial kingdom  
But a rebellion against an oppressor that has risen  
among us,  
It is not a foreign invasion we have to fear,  
Rather the threat of a force within our nation  
That has usurped what was once a dream of having the  
greatest democracy ever known to man,  
We now live in a world where the population has grown  
exponentially,  
And the planet is running out of resources to sustain us  
all,  
We in the inner-city and those struggling in the  
suburban ghettos may not realize it yet,  
But make no mistake,  
The people who control the technology and run every  
enterprise that makes up our world,  
Have seen this coming for a long time,  
The ideas of renewable energy,  
Global warming,  
The idea of collectively working,  
Were purposefully bought out, derailed, demonized, or  
corrupted,  
In favor of an economic structure designed by a  
monetary caste system,

In a desperate attempt to convince us that we need to  
maintain that extravagant existence,

They've pretended we might share in their dream,

That we can justify any inhumanity in its name,

Out of this blind ignorance was born the curse of  
slavery,

Many of the founders of this nation were themselves  
Masons,

That is not a Left wing or Right wing conspiracy theory,

It is a widely known and accepted fact,

So then explain to me how a nation founded by men,

Who not only understood the long and complicated  
history of Europe,

But also that of Africa,

Could permeate such a lie in convincing the American  
public,

That one race of men was superior and one inferior,

When in fact we know that all the early men,

The men who created civilization and every aspect of  
what we see today,

The foundation of all human life,

Were from Africa,

The greatest cowardice of course came not with  
slavery itself,

Unfortunately,

But with the excuses for slavery,

For if America had been as brave as the Roman Empire  
and all other empires that have come after her,

And claimed "No, we were just stronger and that's why  
we took you",

Then when slavery was over racism would've probably  
followed in suit,

But instead it was the social lie,

The religious lie that was told,

That stayed in the mind of people,

That seperated one human being from another,

In order to distract us from the issues of class and  
freedom,

They created issues around religion and race to  
dominate the world for centuries to come,

Some claim that they respect that they respect the  
culture of life in this country,

They cry out for indignity of children that are  
slaughtered before they are born,

But God has not penetrated their souls,

For they have no empathy,

Nothing in their cold hearts for the 100s of 1,000s of  
lives we have taken in our wars overseas,

For that which they call "collateral damage",

Which the are the burnt and damaged children of the  
world,

They have no prayers for them,

Only snide commentary on the internet and laughter in  
their hearts,

And yet you claim to be one with God,

Huh,

We talk about immigration in this country,

Might doesn't make right ladies and gentleman,

It just makes right now,

What we are saying to the rest of the world,

Is one day when America grows weak,  
One day when her legions falter,  
On the day when her economy crumbles,  
China, Russia, Europe, whatever power has arisen,  
All you have to do is come here and conquer us in a  
few military excursions,  
And then you too can set up shop here,  
And in 100 years you can tell every red-blooded  
American,  
"No, you are an illegal human being,  
I am the true citizen,  
I have all the rights,  
You have no rights",  
Maybe you forgot how you got this country,  
Maybe you take for granted the blood, the sweat, the  
tears,  
That the people who live in practical serfdom shed  
everyday,  
For we may not run America, but we make America run,  
We talk about the Law,  
Yet,  
How many indignities have been legal in the past?  
How many treaties with Native Americans have we  
broken?  
How many international laws have we violated?  
And,  
Speaking of laws ,  
How can a corporation be regulated by a government

that is funded and controlled by corporations?

How can there be accountability,

For people who see a profit margin above the lives of  
Americans?

Above the lives of human beings in other countries?

We have taken the soul out ourselves and placed them  
inside machines,

My words of course,

Will be marginalized, demonized,

In typical fashion,

Anytime you dare to question the power structure they  
say you hate America,

No, I love this country,

I see its beauty everyday in its people,

And I love it a lot more than those who have abandoned  
the American worker,

That have chose to exploit and try to take away benefit  
she has,

Those that attempt to make excuses for every atrocity  
committed,

In the name of supposed freedom,

Those who demand accountability from everyone,

But offer none themselves,

Who favor contracts over lives,

Who favor invasion and control over organic  
democracy overseas,

The greatest flaw that any intelligent person has is to  
think they're smarter than everyone else,

And so the government has planted its spies amongst  
us,

We have planted our spies among them,

They have infiltrated every branch of the American government,

They have retrieved names, data, hard numbers,

The paper trail that will expose those that truly control this country,

Those that control the political parties,

Those that control the oil industry,

The energy,

Those that stand behind the companies faceless,

Whose names have never been revealed,

Until tod.. (GUNSHOT)
