My friends and my family  
It's for all you kids  
Hardcore is everything  
It means the world to me  
The scene, my brothers  
My true friends and my fucking family

Go, I trust my sincerity  
And I don't know where I'd be  
Without this fucking scene  
Without this hardcore scene

I'd lay down my life for, for my family  
My friends are everything to me  
I love them with all I have  
I love them with all I have

Through fights and hardships  
I know they'll be there, they'll be there  
They'll always be right by my side  
They'll always be right by my side
