I see you're weak
Did you see that we were strong?
I see you're weak
Did you see we're strong?

We all make mistakes in life
You make your choice, same time you made mine
You found a man that you'd give for
And what you gave would mean my everything

You'd come around in the long run
I can see now how we all lost hope
'Cause we, we would spend everyday
Thinking about you, we'd grow strong without you

We had each other, that's all we needed
Life wasn't easy but it could be beat
A constant battle, mine for the taking
With them beside me and that's all I'd need

We had each other, that's all we needed
Life wasn't easy but it could be beat
A constant battle, mine for the taking
With them beside me and that's all I'd need

The years without you were far from easy
We'd have our visits but only in my dreams
I might sleep smiling through I was cold
We had a fire that's not what makes a home

Forget the past, let's forget the struggle
We have you back and that's all I need to know
You need us now and we all forgive you
I see you're weak, did you see we're strong?

Forget the past, forget the past
Are you proud that we all turned out so strong?
We have you back, we have you now
Are you proud that we all turned out so strong?

You need us now and we all forgive you
Are you proud that we turned out so strong?

I see you're weak, did you see we're strong?
Are you proud that we turned out so strong?
Are you proud that we turned out so strong?
Are you proud? Are you proud?

We all make mistakes in life
You make your choice, at the same time you made
mine
You found a man that you'd give for
And what you gave would mean my everything
