You're right swinging difference  
And my re demonstrations  
You told my blood apart  
With over conversation  
Two years of my live  
Just a fucking live  
I gave everything for us  
And you just watched us DIE  
And you just watched us DIE

Confutation and make deception  
Perception jug glee a fay  
My perception a fuck position  
Take the poses away of every fucking tip I take(x2)

I was ever broken  
And just be fucking victim  
I've waited for too long  
The song demonetization

Two years of my live  
Just a fucking live  
I gave everything for us  
And you just watched us DIE  
And you just watched us DIE

Confutation and make deception  
Perception jug glee a fay  
My perception a fuck position  
Take the poses away of every fucking tip I take(x2)
