Turn your head and run  
This is the worst it's ever been  
Just stay a little while longer

I'll keep waving till you're gone  
Making sure that I'm the last thing that you saw  
In my heart it's been so long  
I keep on waving but I know that this is wrong

Oh, who are we foolin' anyway?  
The games we play, the love we break  
The words we don't say

When it all turns up for the worst  
When the sun sets all around us  
I'd trade my life for yours a thousand times

I'll keep waving till you're gone  
Making sure that I'm the last thing that you saw  
In my heart it's been so long  
I keep on waving but I know that this is wrong

Everyday I try to make this right  
Everyday I try to make sense of this mess  
Everyday I try to make this right  
Just to make you believe in me again

Everyday I try to make this right  
Everyday I try to make sense of this mess  
Everyday I try to make this right  
Just to make you believe in me again

Everyday I try to make this right  
Everyday I try to make sense of this mess  
Everyday I try to make this right  
Just to make you believe in me again

Everyday I try to make this right  
Everyday I try to make sense of this mess  
Everyday I try to make this right  
Just to make you believe in me again

I'll keep waving till you're gone  
Making sure that I'm the last thing that you saw  
In my heart it's been so long  
I keep on waving but I know that this is wrong

I'll keep waving till you're gone  
Making sure that I'm the last thing that you saw  
In my heart it's been so long  
I keep on waving but I know that this is wrong

Everyday I try to make this right  
Everyday I try to make sense of this mess  
Everyday I try to make this right  
Just to make you believe in me again

Everyday I try to make this right  
Everyday I try to make sense of this mess  
Everyday I try to make this right  
Just to make you believe in me again

Everyday I try to make this right  
Everyday I try to make sense of this mess  
Everyday I try to make this right  
Just to make you believe in me again

Everyday I try to make this right  
Everyday I try to make sense of this mess  
Everyday I try to make this right  
Just to make you believe in me again
