Breed as much as you can  
Then send them to where sun goes down  
Brainwashed from birth  
Propaganda taught well

They are mingling slowly  
Taking over the word  
They have the clever blueprint  
For your culture's apocalypse  
Follow the sand trail  
You know where it leads to  
Your worst nightmare are  
About to come true

Bite the hand that feeds you  
After all you are the victim

They are mingling slowly  
Taking over the word  
They have the clever blueprint  
For your culture's apocalypse  
Follow the sand trail  
You know where it leads to  
Your worst nightmare are  
About to come true

This is the end of the western  
Civilization as you know it  
One by one you will obey their  
Laws and ways  
You are the puppet at the circus  
And their spit at you  
You are already on your knees  
Pathetic gutless west

Keep on screaming prejudice  
As you put infidels to death
