Firestorm - genocide
Kill them all before they kill you
Radiation - overkill
Apocalyptic truth of the year one (666)
CHORUS 1:
Ghettoblaster, megatron, kill!
Firepower - final war
Heading for the infernal reign
Raining blood - mushroom clouds
Rats, insects, vomit and agony
CHORUS 2:
Ghettoblaster, nervegas, kill!

BRIDGE:
Kill, fucking kill!
Make them fucking die
Kill, fucking kill
No mercy for scum
BRIDGE
Overrule - with terror and pain
As history turns the new page
666 - the year of hate
The year scum will be blown away
CHORUS 3:
Ghettoblaster, apocalypse, kill!
