Hate despise arrogance
Three rewarding factors
Bashing in your heads
Makes life fucking perfect
Hate despise arrogance
Three rewarding factors
Mindless violence
Releases modern day stress
We hunt during the night
Seek out helpless victims
Under the sigil of baphomet
We commit our satanic crimes
I am going to summarize
This album's message for you
I hope Lord Satanus gives you all ass cancer
Hate despise arrogance
Three rewarding factors
Bashing in your heads
Makes life fucking perfect
Hate despise arrogance
Three rewarding factors
Craving for more blood
We will live forever
