As the new millenium closes in  
Take a look what's going on  
Carriers of the plague on earth's every corner  
The disease is spreading again  
I remember the better times  
Once the plague was destroyed  
Now this disease is everywhere  
Action is needed in order to survive  
It is time to start fighting back  
Or we all end up like them  
Back in the days of Vietnam  
The cure was called napalm  
Che Guevara wept!  
chorus: Healers of the red plague

We are heading for the new world order  
Where no plague stands a change  
Forcefed disease for subhumans  
All healed once we strike back  
Back in the days of Vietnam  
The cure was called napalm  
Che Guevara dead!  
repeat chorus  
(Music: Lehtosaari  
Lyrix: Luttinen)
