We corner the christian pigs
Attack with full force
Their cries for help are useless
Because we already killed their god

[Cho:] Humble fuck of death - Brings forth damnation
Humble fuck of death - True power of Satan
If you survived nuclear winter, the worst is yet to come
Not one swine of god will walk on this planet anymore

How many punches can you take
Before you'll pass out
We will wake you up by shoving
Hot iron up your arse

[Repeat chorus]

Kill them pigs!!!

[Lead: Somnium]

We will hack off all your teeth
Then we will skin you alive
What a great thing to see
Christian pigs dead all around

[Repeat chorus]
