Burning the brutal, brutal out of the game  
Bleeding in fire that releases part of my brain  
I akth a sakhn, I a sakth the flame  
As you die for Satan, Necronomicon, the burning gates

Sadogoat-masogoat

Burning the victims, victims of over-throne  
Killing the fire, inside, outside of the door  
Satan wants you, believe in fire & flame  
Killing the brutal, brutal inside my brain

The goat is about to reign  
As they will eat your brains

The victims of infernal war,  
Burning witches... arrgh!

Burning the fire,  
Inside, outside of my brain  
Killing the goat,  
That lives inside my brain  
Goatic reign,  
Will you confess at first sigh  
Satan's whore, Lucifer be my guide
