Something sinister is on the air  
Something sinister is lurking in the shadows  
Something sinister is coming after you  
You pay the price now for being a whore  
It's a rape time and I can smell your pussy  
It's a rape time and I can smell your fucking cunt  
Tonight you are going to see the true face of evil  
You pay the price for being an ignorant cunt  
Something sinister is found to happen  
Something sinister will rip you apart  
Something sinister will be the law  
You will beg for death to come fast  
It's a rape time and I can smell your pussy  
It's a rape time and I can smell your fucking cunt  
Tonight you are going to feel the embodiment of evil  
Your prayers for mercy shall be ignored  
Something sinister is right here  
Something sinister has the firm grip  
Something sinister will make you swallow  
You will be delighted but the taste of sin  
It's a rape time and I can smell your pussy  
It's a rape time and I can smell your fucking cunt  
Tonight you can be proud once in your life  
You got the attention you were craving for  
Bruises, bleeding, pain come with the trade  
Self-loathing won't get you far  
Accept your fate and carry on living  
Because you have chose to be something sinister
