Oh you will love the suffering  
We will put you thru  
Claiming to be the people's prophet  
Deceiving mad carpenter

And now on the way to Golgotha  
Whipped, spat at, humiliated  
Born of whore

Vultures are circulating around  
As you are dying  
Boner-biting bastard christ  
Cum-swallowing

And now dying at Golgotha  
Beaten, laughed at, violated  
Son of dog

[Cho:] The heat was like from 1000 suns

As you were nailed to the cross  
Shit was running down on your legs  
You were hating life and yourself

No magic tricks to save your ass  
It is the day of reckoning  
Questioning your existence  
On the eve of death

And now dead at Golgotha  
Raped, impaled, mutilated  
False saviour

[Repeat chorus]
