Forty days and forty nights
In the hot desert sand
I've paid my dues all my life
And now it's out of my hands

Take a look inside, nothing ever comes easy
When it's cold outside, keep your passion alive

You've got to grin and bear it
Don't let it get you down
You've got to grin and bear it
You know you've got to stand you're ground

In the storms of fire and ice
Keep your eye on the prize
You've got to fight the good fight
And it always takes time

Take a look inside, nothing ever comes easy
Keep the dream alive,
You don't know what you'll find

You've got to grin and bear it
Let nothing move your soul
You've got to grin and bear it
Don't wanna lose control

GGGG-Grin!
Don't let it get you down
You've got to grin and bear it
You know you've got to stand your ground

You've got to believe in what you do
And who you are,
Nothing comes easy
When you're chasing down the star

Solo

You've got to fight for who you are,
Grin and bear it

Chorus
