

## Impellitteri "United We Stand"

Visit "[United We Stand](#)" on MotoLyrics.com

It was 8:45 New York time when disaster filled the sky  
Death struck and the towers rocked, then we began to  
die  
All the steel came crashing down and rose in a cloud of  
smoke  
The world watched on CNN and stood in a state of  
shock  
You fool, I say to the eastern man, your evil ain't  
heaven sent  
You better run and you better hide cause you pissed  
off America

We ain't gonna live in fear  
We're men of God and American  
United we stand hand in hand  
And when I touch the stars  
I feel alive in the land of pride  
I pledge allegiance to the flag of America

This prick on a power trip unleashed the dogs of war  
You say you're a man of God but you're just the devil's  
whore  
You fool, I say to the eastern man, your evil ain't gonna  
win  
You better run and you better hide cause you pissed  
off America

We ain't gonna live in fear  
We're men of God and American  
United we stand hand in hand  
And when I touch the stars  
I feel alive in the land of pride  
I pledge allegiance to the flag of America

United we stand America  
United we stand America  
United we stand America  
United we stand America
