Pazuzu rotten god of the pit
We summon you lord of the storms
Praise

The black wings of thousand
Swarms in pandemonic sound
The plague rises from the swampy ground

And never join this way of life
'Cause you fear the god of flies
Believe me revenge is near

Chaos god
The overlord
Chaos god

Lamaschta

Chaos god
The overlord

Lord of fevers and deadly plagues
Fourwinged demon the angel of disease
We summon you god of infernal storms from the
South and the west

Chaos god
The overlord
