Eat our Shit, we bang you to the Rest
Let's fight for our Right
Metal will never die
We bring Metal to the Metals
We're the Powersearching Ones
We bring Metal to the Metals
Under the Blade of the Dark Commands
We bring Metal to the Metals
We're the Powersearching Ones
We bring Metal to the Metals
Crush your Enemies
You call us Black or Thrash or Death
Another one, we will bang you to the Rest
We say fuck off to trendy Blasphemy
We walk the Way of true metallic Supremacy
