Obscure funeral
We salve the goat

I'm the grande phallus of creation
Black goddess of devastation
Justice and iniquity
The universe of duality

The blasphemous conquest
A diabolical manifest
Boiling blood and burning bones
Chaos truth the lie

Obscure funeral
Obscure wake up the grotesque

Ave
All ways lead to hell
All the streams flow to inferno
So keep the black flame burning
In your hearts and in your minds

Obscure funeral
Obscure wake up the grotesque

I'm the grande phallus of creation
The black goddess of devastation
Boiling blood and burning bones
Chaos truth the lie
