Bring us down  
you try and try  
never giving up  
bring us down  
you are relentless  
just another machine  
bring us down  
clap on clap off  
just another machine  
with your armored suit  
and that pretty face  
your life's a waste of time  
you will be shut out  
keep thinking its alright  
you brought this on yourself

your joy was hating us  
we will steal your smile  
no more lies  
sail away  
with all your crooked smiles  
sail away  
go hide behind your friends  
bring us down  
you try and try  
never giving up  
bring us down  
you are relentless  
just another machine  
bring us down
