I dont wana be alone
You dont wana see me go
I just wana be with you
Cause Im happy as 2, as long as youre true
I wana be right beside of you

I dont wana be alone
You dont wana see me go
I just wana be with you
Cause Im happy as 2, as long as youre true
I wana be right beside of you

They say opposites attract,
believe its more than a fact
I was a player in the past,
and she was far from a slag
But she still gave me a chance
To prove Im a different man
A different class,
Had her friends telling her it wouldnt last.
But she inored all that,
She would keep it clever,
Cus she had faith in the fact that we would keep
together,
They say that when you cheat once that you will cheat
forever,
But I had the pick of the bunch no need for cheating
ever
And shes the generous type, so pretty inside,
A woman who knows what they want,
The pickiest type
Embraced with a beautiful face and troublesome eyes,
blessed with the sexiest body,
And Im loving them thighs.
And when we cuddle in bed Im lovin the vibe,
I dont need you to open your legs to bubble the night
Got a feelin deep in my chest that prevents me from
sleeping with the rest it must be love right

I dont wana be alone
You dont wana see me go

I just wana be with you
Cause Im happy as 2, as long as youre true
I wana be right beside of you

I dont wana be alone
You dont wana see me go
I just wana be with you
Cause Im happy as 2, as long as youre true
I wana be right beside of you

I cant believe how we turned out,
were still on firm grounds,
I thought after a year we would burn out
But the fire remains were still burnin,
And I would never lie to your face youre still perfect,
My feelins havent changed since the first date,
even through our worst case arguments worst pains,
still managed for everything to turn great
And thats why I get butterflies like it was our first date,
Cause from your eyes to legs,
makes you a lot of miles ahead compared to another
girl,
I dont say nothin that might offend,
Cause I think about the time we spent, youre in another
world,
And I dont do breif anymore,
cause without you I wouldnt be me anymore
All I wana do is keep the smile on your face
Thats why Im here all times of the day,
Right beside of you

I dont wana be alone
You dont wana see me go
I just wana be with you
Cause Im happy as 2, as long as youre true
I wana be right beside of you

I dont wana be alone
You dont wana see me go
I just wana be with you
Cause Im happy as 2, as long as youre true
I wana be right beside of you
