Finisha, imperial squad  
Sir b on the beat again  
Introducing the first lady Abby

All you do is make love to me, make love to me  
All I am is just a link to you  
All you do is make love to me, make love to me  
All I am is just a link to you  
All you do is make love to me

Let me just set one thing straight  
Your not wife so we don't make love  
You're a link so we just fuck  
Don't get it mixed up your just there at convenient  
times  
When I'm horny and my tings up  
And we don't spend time on the phone  
Just straight to the point when she rings up  
Erm come to my yard  
You got any condoms  
Naa man bring nuff  
We can get to that naughty stuff  
Experienced girl like she's 40+  
I can't lie yeah she's taught me nuff  
I like the fact that she don't talk to much  
And I'm not her man but she's bought me stuff  
I love what she wears them horny things  
Temptations strong so im forced to touch  
But she knows she jus a linker

You don't love me, you don't love me  
I don't love you, I don't love you  
I'm just a link to you  
You're just a link to me cause  
You don't love me, you don't love  
I don't love you, I don't love you  
I'm just a link to you  
All you do is make love to me, make love to me  
Al I am is jus a link to you  
All you do is make love to me, make love to me  
All I am is jus a link to you  
All you do is make love to me

Look you're my chick in the night  
My bit on the side  
Creeping around a bit of excitement  
Slicker than lies  
You wanna be wife  
But we both no wifey's a no go  
Getting u vexed the thought of second best  
After sex she'd rather lay in bed  
Instead of getting dressed but  
We both know its time to go home  
But I still like the way that we flex, the way we flirt, them  
dirty texts  
The way we merge to the way we step  
It's a real shame about your past though  
But I still like the way that we get along and  
I like the way that you think cause  
You know when its time to get along  
And you know you're just a linker

You don't love me, you don't love me  
I don't love u, I don't love u  
I'm just a link to you  
You're just a link to me cause  
You don't love me, you don't love me  
I don't love you, I don't love you  
I'm just a link to you

All you do is make love to me, make love to me  
All I am is just a link to you  
All you do is make love to me, make love to me  
All I am is just a link to you  
All you do is make love to me, make love to me, make  
love to me, make love to me  
All you do is make love to me, make love to me, make  
love to me, make love to me

You don't love me, you don't love me  
I don't love you, I don't love you  
I'm just a link to you  
You're just a link to me cause  
You don't love me, you don't love me  
I don't love you, I don't love you  
I'm just a link to you

All you do is make love to me make love to me  
Al I am is jus a link to you  
All you do is make love to me make love to me  
All I am is jus a link to you  
Al you do is make love to me  
All you do is make love to me

All you do is make love to me  
All you do is make love to me
