Do you wanna drive? Do I have a say?  
The one that breaks down's the one that got away  
Nowhere to hide, tan it with the blade  
Hike it up high, cut it to a fade

At first was so right, now just OK  
That's what you get when you pay your own way  
Put up a fight, watch what you say  
Dress up for the night and down for the day

And it's alright  
Down from up high and out from inside  
And it's so bright  
Back to the front and out to the side

And it's alright  
Lifting me up, pushing you down  
In the sunlight  
Watching you swim, watching you drown

Hold your head high, done for the day  
Save your goodbye, take off your face  
Taking the bait, tangled and frayed  
Comb it out straight, put it in a braid

And it's alright  
Down from up high and out from inside  
And it's so bright  
Back to the front and out to the side

And it's alright  
Lifting me up, pushing you down  
In the sunlight  
Watching you swim, watching you drown

The glass will fit the ceiling  
To wear it out will break it in  
Rip out the page you're stealing  
The plagiarist will always win  
The glass will fit the ceiling  
We'll pass it to the next of kin

And it's alright  
Lifting me up, pushing you down  
In the sunlight  
Watching you swim, watching you drown

And it's alright  
Down from up high and out from inside  
And it's so bright  
Back to the front and out to the side

And it's alright  
Lifting me up, pushing you down  
In the sunlight  
Watching you swim, watching you drown

And it's alright  
Down from up high and out from inside  
And it's so bright  
Back to the front and out to the side
