

Imperials "Eagle Song"

Visit "[Eagle Song](#)" on MotoLyrics.com

I stood and watched an eagle fly
Spread his wings and soar across the sky
So gracefully he flew
Rising effortlessly
I wanted to know just how to be free

Tiny fingers curled 'round mine
Perfectly formed; new born
The image of two
Infinite mystery
I wanted to know where life comes from

What human intellect can't sway
Must be explained this way
Earth wisdom, religions of men
Searched without end to find the spirit house within
Simplicity of God somehow escapes man

Ooh ooh ooh...

I reach for the eternal one
Creation he was waiting to renew
His purpose in me
He said this is where life begins
I made your spirit to glide on the wind

Come let's fly on the wind
Come on let's fly on the wind
On the wind
