You candle lit shadows and left them on the floor
This is set black and ran out through the door
Enjoy the sensational nuclear nights
Bang-bang-bang no more lullabyes
The children are happy now
It's a 21st century sign
They dance in the burning white light
It's a 21st century sign
Gets chicken skin
Every other time she enjoys some sins
She's full of generetional drugs from any store
Bang-bang-bang and alwasy screams for more
The children are happy now
It's a 21st century sign
They dance in the burning white light
It's a 21st century sign
The children are happy now
It's a 21st century sign
They dance in the burning white light
It's a 21st century sign
All medecine in eyes
She's got a loose screw
Ha-ha-ha in a moviestar style
The children are happy now
It's a 21st century sign
They dance in the burning white light
It's a 21st century sign
