There is a dream
There is a dream
There is a dream

There is a dream
And this dream is waiting for you
Close your eyes
And the dream you see will come true

There is a dream
And this dream is waiting for you
Close your eyes
And the dream you see will come true

Will come true, uuuh
Will come true, uuuh

Take your dreams and live your life
Make you dreams and don't think twice
Don't think twice
Don't think twice

Take your dreams
Take your dreams

Take your dreams and live your life
Make you dreams and don't think twice
Take your dreams and live your life
Make you dreams and don't think twice
Don't think twice
Don't think twice
