Your life is in danger...  
Beware of the cannibal whores  
Keep your distance from the uncivilised humans  
Observe their daily ritual of desvration and  
dismemberment  
Bamboo shelters degraded with carcasses  
A village of poverty and paranoia  
Pestilence and unsanitary conditions are the causes of  
death  
The mortality rate increasing, the lost race decreasing  
A population of sinners, victims victims of god  
Their elderly die of infection and rot  
Smell the pile of burning flesh  
Charred dead, flames engulf rigor mortis  
The fortunate ones eat one  
another to remain alive  
The screaming victims are unheard as they're eaten  
alive  
The slaughter  
continues throughout the night  
Fires made to cook meat and cartilage

Maggots nest in the entrails,  
carrions in pools of waste  
Cannibals without conscience, hunger is reason  
A nightmare scene,  
detached genitalia on dansling spleen  
Parasite feasting on its limbs  
Chances of survival are slim  
Dance with mind demons, inhuman behavior  
Stenches beyond repulsive, guts splatter starving  
faces  
A hell on earth, origin of ancient atrocity birth  
Psychotic perversion, masturbatory motions  
Necrophilia... feed the sickening psyche  
Your fate to encounter the malicious, cursed tribe...  
SCREEEEEEAAAMM!!! AAAAAHHHHHHH!!!!
