Dear Uncle Creepy, it's been years  
Morbid fantasy exterminate my childhood fears  
Some of the crap that's out these days  
Is such a bore to me!  
Dear Uncle Creepy  
The shit they call "horror" in the comic store  
Nobody's got that style anymore!  
Pre-code classics provide the chills  
This high-tech bullshit never will!  
As far as movies are concerned.

There's plenty out that should be burned  
The horror's gone, big budget's here  
Whatever happened to the meaning of FEAR????  
Dear Uncle Creepy, it's a crying shame  
The "terror" of the 80's is so fucking LAME!!  
Whatever happened to the good ol' days  
Has you and Cousin Eerie turning in your graves!
