Geathen flames engulf, as demons celebrate  
Flow of thunderous death, chaos beyond control  
Flock of Jehovah, demolished to a mess  
Extermination - command! law made flesh  
Bestial violence, deprivation and unrest  
Kneel before your master, now face death

Goathfather... Exalted Lord Baphomet,  
Goathfather... Genocidal Saviour

Desecration fumes engulf, sign of irreverence  
Icons of fallen gods, decorated in excrement

Blessed be Azazel, Emperial Sorreror in black  
Under one flag, in your name, we launch attack  
Profane and vulgar, triumphant march in league  
With devils and demons, Necro troops of blasphemy

My hordes of the ancient cult  
My hordes that rapes and strike  
Tear down, demolishing all  
I am the fist of the black god  
Devourer of angels and souls  
I tear down, obliterating all  
Curse!  
I am the fist of the black emperor  
Devourer of angels and souls  
Exhalt!
