"Vientos De Holocausto"

Visit "[Vientos De Holocausto](#)" on MotoLyrics.com

Splitting heavens open
Commeth terror death storms
Conflagaration
Bringers of Armageddon
Fast annihilation

They bleed, they fall
We've ravaged, them all...

Atomic gales descendeth
Obliteration
Soon from within they destruct
Deterioration

Twilight of destruction
We welcome the vengeful breath of death

Distorted vast horizons
Intense nuclear cyclones
Abomination
Eternal hell to humankind
Sound detonation

Vientos de Holocausto
