They crawl  
They beg  
They kill on command  
Like puppets made of human clay  
For blood they will obey

Eliminate  
No man shall stand before me  
To liquidate  
No savior to await  
Withdraw the faith  
For this is our last crusade  
Until they're dead  
With power I will raid

Bloodspill revelation!  
Through death you'll see my name  
Dust to dust  
And ashes to remain  
Bloodspill revelation!  
With blood you'll have to pa  
Dust to dust  
And ashes to remain

They prey, they kill  
They will do what I say  
For I am total death unleashed  
And we are here to stay

Eliminate  
No man shall stand before me  
To liquidate  
No savior to await  
Withdraw the faith  
For this is our last crusade  
To desecrate  
We raise the flag of hate

Allied we devastate...  
Renegade  
Soon you're all to be deceased  
A plague unleashed

The world is turning black  
As all life fades away

They crawl  
They beg  
They kill on command  
Like puppets made of human clay  
For blood they will obey

Eliminate  
No man shall stand before me  
To liquidate  
No savior to await  
Withdraw the faith  
For this is our last crusade  
Until they're dead  
Bloodspill is my faith

Bloodspill revelation!  
Through death you'll see my name  
Dust to dust  
And ashes to remain  
Bloodspill revelation!  
With blood you'll have to pa  
Dust to dust  
And ashes to remain  
Unholy death unleashed  
Bloodspill revelation!
