At the jaws of death I am my own prey  
Rely on a needle fare, a twisted mind insane  
No sun to announce tomorrow  
Nocturnal of one kind, hallucinated mind  
It's a godless fucking ride  
Do or die!

No control to save the day, there's no light to follow  
I interrelate  
Damage done  
To kill the rage I embrace the sorrow  
I hallucinate

Schizophrenic mental warfare  
Abusive suicide  
Stand by for another ride, illusion of higher kind  
There is no light to follow
