"Leave No Man Behind"

Visit "[Leave No Man Behind](#)" on MotoLyrics.com

Every once in awhile I get tangled up on my loose ends
And I strangle myself on promises made to old friends
Just once he'd like to take one step forward not two
steps back
Like the drops in the bucket balanced on his back
The little things add up so fast
In every sense of the word his life has become
effortless
Like pride it's easy to swallow, but it's difficult to digest
Just once he'd like to take one step forward not two
steps back
Like the drops in the bucket balanced on his back
The little things add up so fast
You didn't learn a thing, you wallow and still cling
To you mistakes like they're precious memories
You never gave enough, you thought that you were
tough
But you were weak, and I have no sympathies
(My opinion may not necessarily represent
All the thoughts and attitudes of those I've grown to
resent
But from time to time I take a step back to reflect
On the self-destroying ideals I once fought to protect)
