You see the light  
You're going strong  
But then you lose control and feed that soul  
You see no right nor wrong  
You're here to kill them all  
Homicide  
It's like a spell  
You are going through heaven and hell  
So hear the Devil's call... To slay them all!

Toxic paranoia  
Psychotic vengeance reborn  
Trippin' with the devil  
Euphoric madness for all  
There's no room in hell  
All sinners will walk the earth  
Till heaven falls apart  
Toxic paranoia!

That's right, hunt 'em down  
But have you ever felt that evil bites  
So hear the Devil's call... Slay them all!

Toxic paranoia  
Psychotic vengeance reborn  
Trippin' with the devil  
Euphoric madness for all  
There's no room in hell  
All sinners will walk the earth  
Till heaven falls apart  
Toxic paranoia!

Reach out!  
Reach out for a hand that's not there  
Soul torn out  
Torn out of you  
Play the game and you'll survive  
Your eyes are turning black

Reach out!  
Reach out for a hand that's not there

Soul torn out  
Torn out of you  
These chains are made of sin  
Deadly poison  
Shattered dreams await

You see the light  
You're going strong  
But then you lose control and feed that soul  
You see no right nor wrong  
You're here to kill them all  
Homicide  
It's like a spell  
You are going through heaven and hell  
So hear the Devil's call... To slay them all!

Toxic paranoia  
Psychotic vengeance reborn  
Trippin' with the devil  
Euphoric madness for all  
There's no room in hell  
All sinners will walk the earth  
Till heaven falls apart  
Toxic paranoia!
