If you feel like downing i would drown with you
what i wouldn't do, i breathe my breath for you
Nothing comes easy everything is hard
if we fell apart, i would fall apart
they know not what we know we do (we do we do)
they cannot hold up me with you (we do we do)
They know not what we know we do (do, do, do)
and when you're careless i will care for you
if you want me to
I'll breathe your air
Nothing comes easy everything is hard
if we fell apart, i would fall apart
they know not what we know we do (we do we do)
they cannot hold up me with you (we do we do)

They know not what we know we do (do, do, do)
Save me I can never let you go
slowly sinking
i will never let you go
Save me I can never let you go
slowly sinking
i will never let you go
