If you feel like downing i would drown with you  
what i wouldn't do, i breathe my breath for you  
Nothing comes easy everything is hard  
if we fell apart, i would fall apart  
they know not what we know we do (we do we do)  
they cannot hold up me with you (we do we do)  
They know not what we know we do (do, do, do)  
and when you're careless i will care for you  
if you want me to  
I'll breathe your air  
Nothing comes easy everything is hard  
if we fell apart, i would fall apart  
they know not what we know we do (we do we do)  
they cannot hold up me with you (we do we do)  
They know not what we know we do (do, do, do)  
Save me I can never let you go  
slowly sinking  
i will never let you go  
Save me I can never let you go  
slowly sinking  
i will never let you go
