

Impossibles "Oh, Angelina"

Visit "[Oh, Angelina](#)" on MotoLyrics.com

We've got so much to learn about each other
If you'd take the time to be so inclined to
tell me and no other

I would keep your fears a secret
Give my strengths up for your weakness
You will finish what I start
I'll give my faith if you have my heart

Oh, Angelina
You took me apart

As the sinking feeling sinks in
Slow and heavy and caving my chest in

Please Angelina promise days alone won't make you
question

We have spent our nights
(Always eyeing stars and satellites)
I was staring at the same sky as you
We have spent our nights
(Always eyeing stars and satellites)
Missing you instead of kissing you
