Oh...Sekhmet may the mighty voices of vengeance  
Come with fiery winds  
Live in my flesh  
May the breathen of vengeance turn me  
To a machine of annihilation  
To crush the body of my hostile  
Oh...Sekhmet, oh...Sekhmet  
You, living in obscurity,

Commanding the order to stab  
Knowing the path of the vengeance  
Throw your venomous iron of three spikes  
Throw your burning glance(in the name bast)  
And the points of spurs  
Let my victim nailed to the wall of my vengeance  
Oh...Sekhmet
