Yeah, have you ever been with a girl that you did wrong?

And then she knew that you did wrong

And then she go with somebody else

So now you're mad, listen up

Every time I close my eyes I see you

And I know what I'm supposed to do

Leave her alone, get back with you

(Yeah, come on)

My love is strong hold on to me

What I did was wrong she think of me

A friendly conversation left misery, yeah

I'm so gullible that I need you back here with me

(Girl he needs you back)

Every time I close my eyes I see you

It used to be my girl but now you're his boo

And I know what I'm supposed to do

Leave her alone and get back with you

There's no other girl in this world for me

To spend my life with, there's no need to fight

I feel the chances opening up to get back in, in with you

Not being like the other guy setting the trend, and

making our love win

Every time I close my eyes I see you

It used to be my girl but now you're his boo

And I know what I'm supposed to do

Leave her alone and get back with you

I want your head back on my pillow

It's a breezy night sitting on the apple tree

Thinking of you and me, my baby love

I hope you're wearing the other half of my heart

I gave to you on Valentine's Day

I need you here with me, yeah, yeah, yeah, yeah, yeah

Every time I close my eyes I see you

It used to be my girl but now you're his boo

And I know what I'm supposed to do
Leave her alone and get back with you

Every time I close my eyes I see you
It used to be my girl but now you're his boo
And I know what I'm supposed to do
Leave her alone and get back with you

Every time I close my eyes I see you
It used to be my girl but now you're his boo
And I know what I'm supposed to do
Leave her alone and get back with you
