See, normally a brother wouldn't talk about his first time

But I will just be real with y'all and say what's on my mind

I remember like yesterday, just a little man
I have no clue just quite didn't understand

Looked up to big bro for a little advice
He said, "Young bro, whatever you do, just make sure you strap twice"

I was a little nervous about it being my first time
But I said, "What the hell, this girl is too damn fine"

My very first time
In the house, on the couch, in your parents' bedroom, remember
My very first time
I can't wait 'til the day when I see you again, remember

My very first time
It was just as special to me as it was to you girl
My very first time
I will never forget my first time

See it was Sunday afternoon, moms and pops were gone
We had to be on the low 'cause they were on their way home
We started kissin' then it led straight to the bed
I can't believe this is happenin' is what I'm thinkin' in my head

Lasted like a minute but it seemed like forever
We almost got caught but I'm just too damn clever
Your parents came home from church
And I was outta there like a drop of a dime
Man, I will never forget my first time

This goes out to the first do you know
Who you are, I will I see you again
(See you again)
And no matter how old we both get no regrets

I'll never forget my first time

My very first time

In the house, on the couch, in your parents' bedroom,
remember

My very first time

I can't wait 'til the day when I see you again, remember

My very first time

It was just as special to me as it was to you, girl

My very first time

I will never forget my first time

See some of you might've started early, some of you
started late

But I know when I started and I thought it was great

This goes out to all my little brothers in the world

Make sure your first time is with that special girl

Clap your hands if you remember

(Clap your hands)

Your first time, your first time

(First time, first time)

Clap your hands if you remember

(Clap your hands with me)

Your first time

(Your first time)

Your first time, baby

My very first time

In the house, on the couch, in your parents' bedroom,
remember

My very first time

I can't wait 'til the day when I see you again, remember

My very first time

It was just as special to me as it was to you, girl

My very first time

And I will never forget my first time

My very first time

In the house, on the couch, in your parents' bedroom,
remember

My very first time

And I can't wait 'til the day when I see you again,

remember

My very first time

It was just as special to me as it was to you, girl

My very first time

I will never forget my first time, and I will never forget

And I will never forget my first time
