[x3]

La la la la la...

La la la la

La la la la la la..

See, normally a brother wouldn't talk about his first time

But I'll just be real with y'all and say what's on my mind

I remember like yesterday, just a little man

Had no clue just what, didn't understand

Looked up to big bro for a little advice

He said "Young bro, whatever you do just, make sure you strap twice"

I was a little bit nervous about being my first time

But I said "What the hell this girl is too damn fine"

[Chorus]

My very first time

In the house, on the couch, in your parents' bedroom
remember

My very first time

Can't wait 'til the day when I see you again remember

My very first time

It was just as special to me as it was to you girl

My very first time

Will never forget my first time

See it was sunday afternoon, moms and pops were gone

We had to be on the low cuz they were on their way home

We started kissing then it led straight to the bed

Can't believe this is happenin' is what I'm thinking in my head

Lasted like a minute but it seemed like forever

We almost got caught but I'm just too damn clever

Your parents came home from church and i was outta there like a drop of a dime

Man I will never forget my first time

This goes out to the first do you know

When will I see you again (see you again)

And no matter how old we both get no regrets I'll never

forget
My first time

[Chorus]
My very first time
In the house, on the couch, in your parents' bedroom
remember
My very first time
Can't wait 'til the day when I see you again remember
My very first time
It was just as special to me as it was to you girl
My very first time
Will never forget my first time

See some of you might've started early, some of you
started late
But I know when I started and I thought it was great
This goes out to all my little brothers in the world
Make sure your first time's with that special girl
Clap your hands if you remember (clap your hands)
Your first time (first time), your first time (first time)
Clap your hands (clap your hands with me)
If you remember your first time (your first time), your
first time baby

[Chorus x2]
My very first time
In the house, on the couch, in your parents' bedroom
remember
My very first time
Can't wait 'til the day when I see you again remember
My very first time
It was just as special to me as it was to you girl
My very first time
And I will never forget my first time
