Yeah yeah..yeah.. ooh .. woooah

Tears they keep falling from my eyes from my eyes
(from my eyes yeah yeah)

Baby girl (baby girl)
Well you got me sitting here .. going crazy (going
crazy)
Oh yes you do oh yes you do
Oh sweet lady
Whether a letter or card
Will do (will do)
Cause a brother sure misses you

Tears they keep falling from my eyes from my eyes
And girl i don't know the reason why reason why
It could be that you left me here alone here alone
And i need you right here in my arms to hold arms to
hold

Pretty one (pretty one)
I've been longing for your face
Can't no other girl take your place (take your place)
Yeah

Why do friends go and player hate
I can't relate
To what they say
Now it's broke us up
And i can't believe
That you got away

Tears they keep falling from my eyes from my eyes
And girl i don't know the reason why reason why
It could be that you left me here alone here alone
And i need you right here in my arms to hold arms to
hold (repeat 2X)

Pretty girl why'd you have to go
Why'd you leave me so all alone
Tears that keep running down my face
No other girl will ever take your place

Pretty girl why'd you have to go
Why'd you leave me so all alone
Tears that keep running down my face
Cause no other girl will ever take your place (come
back woah yeah)

Tears they keep falling from my eyes from my eyes
And girl i don't know the reason why reason why (i don't
know the reason whyyy)
It could be that you left me here alone here alone (don't
you know that i like
You babe)
And i need you right here in my arms to hold arms to
hold (to hold oh)
Tears they keep falling from my eyes from my eyes
(tears they keep falling no
No no)
And girl i don't know the reason why reason why (yeah
yeah)
It could be that you left me here alone here alone (it
could be that you left
Me here alone yeah yeah)
And i need you right here in my arms to hold arms to
hold
