All Night Doctors

She saw the pieces of
Her yesterday
She was wondering
How she's fade away
Who would love her
And breathe and listened in
Where's that she had
Made a difference?

He's a Soldier of misfortune
Seven steps he make - one forward
How the truth hurts
Where lies the crystal lies

Try to wrap your arms
Around our memory
Maybe you were not
Where you're meant to be
Lord knows we're not who
We think we are

All night Doctors
All night Preachers
All night Girls to get you through
Lost and wasted
Hope is fading
And I'm waiting here
For You

Secret life of
Unteriors
Almost girls are superior
Everyday I want
This life for you and
Every night it's the same
On the waiting
For the word of change
For all the fighting
To die away

Find confort in
Your memory
I'm not where I am meant to be
You Shine the world stops
And god's a humble

All night Doctors
All night Preachers
All night Girls to get you through
Lost and wasted
Hope is fading
And I'm waiting here
For You

Were You ever My Love?
Were You ever My Love?
I Don't Know (I Don't Know)
I says...

All night Doctors
(Were You ever My Love?)
All night Preachers
(Were You ever My Love?)
All night Girls to get you through
Lost and wasted
(Were You ever My Love?)
Hope is fading
(Were You ever My Love?)
And I'm waiting here
For You

(Were You ever My Love?)
I Don't... Know
