I want you to remember
A love so full it could send us all ways
I want you to surrender
All my feelings rose today

And I want you to remain
The power of children can amaze
I'll try not to complain
I know that's a pisser baby

The chemicals between us
The walls that lie between us
Lying in this bed
The chemicals displaced
There is no lonelier state
Lying in this bed

I want you to remember
Everything you said
Every driven word
Like a hammer, hell, to my head

The chemicals between us
The walls that lie between us
Lying in this bed
The chemicals displaced
There is no lonelier face
Lying in this bed

The chemicals between us
The chemicals between us
Lying in this bed

We're on the hollow bend
We are the naked ones
We never meant you harm
Never meant you wrong
And I'd like to thank
All of my lovers, lovers, lovers
Lovers, lovers, lovers

The chemicals between us

Army of achievers
Lying in this bed
The chemicals displaced
There is no lonelier state
Lying in this bed

The chemicals between us
The chemicals between us
The chemicals
The chemicals between us
