Sloppy Seconds cover)

I met her in the video store in the summer of 84

She had the body that wouldn't quit

And she know what to do with it

Tracy got lucky in the world of porn

Tracy got noticed and a star was born

Tracy got naked, tracy got laid

Tracy didnt tell them that she was underage

Come back come back

Come back tracy

Come back tracy

Come back come back

Come back tracy

Tracy come back to me

Tracy always did everything they told her

Couldn't wait till she was older

She made the covers of the magazines

Tracy lords was a porno queen

Come back come back

Come back tracy

Come back tracy

Come back come back

Come back tracy

Tracy come back to me

Oh but then one cold november day

They took the girl of my dreams away.

Now shes gone and and i'm going crazy

Oh lord i miss tracy

They took the movies down off the shelves

And now i just sit here and play with myself

I fell in love with a porno queen

I didnt know that she was just 15

Come back come back

Come back tracy

Come back tracy

Come back come back

Come back tracy

Tracy come back to me
