Strange zoo, strange blaze douse my head in flames
coming through got to get some happiness is a bad
son forceps
Kitchen tools deconstruct your every move feels better
when you're here guillotine just got here back bend,
back
Break please yourself to make it rate live it all at your
own cost so many just got lost leaning for fire leaning
to fire
Leaning to fire here's tomorrow man best of my ability
chasing what I can here's tomorrow man instinct, bare
boned
Light it up, take it home you will be all things you'll get
what you bring leaning to fire leaning to fire leaning to
fire
Here's tomorrow man best of my ability chasing
watercans here's tomorrow man best of my civility with
your own
Tongue here's tomorrow man
