"The Current"

Goin down
Goin down
Down where my breath
Is the only sound
(only sound)
Going down

Goin down
Goin down
Don't look for me now
I'm not around
All day long I'm underground

I've been thinking about the future
I've been waiting for the day
Let the current carry me
Far away
Let the current carry me
Away

Current flows
I don't know where it goes
I don't care
I just get it there
(get it there)
Took this job
'Cause I needed one
Not seven years
Since I've seen the sun
All day long I'm underground

I've been thinking about the future
I've been waiting for the day
Let the current carry me
Far away
Let the current carry me
Away
And I've been thinking about the future
I hope some day I'll get away
But the current keeps bringing me
Back around

Seems the only place for me
Is underground
So tomorrow when the sun comes up
I'll be comin down
