

In Case Of Fire

"Align The Planets"

We are on fire from what we've done
(We are on fire from all of the things that we've done)
Haunted by those from the past and those that will
come
(We're haunted by those from the past and those that
will come)
The planets align to find a cure
(Why not align all the planets and ask for a cure?)
The sickness is deep in our hearts
(The sickness is deep in our hearts)
And we are impure
(And we are impure)

I turn to stone
Like the prophets had said, just how they foretold
And angels collide
With the devils and fall like stars from the sky

Now we have to break the fabled parade
Decipher our uncertainty at the end of the world
We don't want to make another mistake and lie in our
hypocrisy at the end of the world

Deliver us from what we are
Disconnect and confess the darkest of hearts
And I can change
But there's nothing to hold, and no one to save

Now we have to break the fabled parade
Decipher our uncertainty at the end of the world
We don't want to make another mistake and lie in our
hypocrisy at the end of the world

Run, run away
