

In Case Of Fire

"And Sorrow"

Visit "[And Sorrow](#)" on MotoLyrics.com

If I want the moment, the moment has gone
The Father that made me has left me alone
I try to remember, I try to repair
And give me the moment, the moment we shared

Why was he taken and why did he leave?
But Father you gave me all that I need
The children of silence, we have to be heard
We try to hold onto the moments we shared

If I want the moment, the moment has gone
The Father that made me has left me alone
I try to remember, I try to repair
And give me the moment, the moment we shared

We find a way to make it out
And sorrow left behind somehow

Remember you in every way
The smile you had and what you said
A satellite, a thousand hands
If only I could find you here again
