Pray now for you
This will end soon
Hide my face now from you

Now's the time for a mission to a better world
Head down, all my fault
Stand in line and the trigger now will take us all
Stay down, all my fault

You don't think I'll let you
You better turn around, you better face the crowd and
live
A second revelation
If you close your eyes, I will tell you why
Just breathe this in and sleep

Pure in your heart, in your head
Is there anything that I said?
I don't know, I'm unsure
The pictures of your better world
Little one, did you know that your parents sleep in my
arms?
Are they cold? I'm unsure
The pictures of your better world

Oh how they fall in a row
Did they make the fear on their own?
Are they cold? I'm unsure
The pictures of your better world
As I turn take the gun, pull the trigger into my heart
Am I wrong? I'm unsure
The pictures of your better world
